 Customer: Presco Scaffolding Ltd,
 Works Order No: 6328
 Customer Order NO: 1481

Re: Testing of Putlog Heads.

Two Putlog Heads were tested to B.S. 1139 - 1964, by the application of a load of 1000 lbs force over a span of 4 feet, the Putlog end being supported only to within $1\frac{1}{2}$ inches of its extremity.

The 2" internal diameter Putlog Heads supplied conformed to the specification, in that no permanent set occurred after loading.

Yours faithfully,
 for B.I.X. (UK) LIMITED.,

D. ROUND.
Metallurgist.
